Workers' compensation insurance

Workers' compensation insurance covers all of the persons who have an employment relationship with the Policyholder (employees and public servants). The Insurance is valid worldwide at work, in an area pertaining to the place of work and on the way to or from work.

With respect to pupils and students covered by the insurance, the cover is valid only when the student participates in a practical class, on-the-job learning, practical training or competence-based qualification or, as part of basic education, during a period of work experience in an educational institution or other location determined by the education provider or educational institution, which is in accordance with the curriculum or qualification requirements and comparable to work. The insurance is also valid on the way from one's dwelling or educational institution to a practical training, on-the-job learning or work experience site or a place for taking a competence-based qualification, determined by the education provider, and back. However, ordinary daily travel from one's dwelling to an educational institution and back or deviations from the daily route are not covered by the insurance.
